Ms. Geisel,

I've attached the public notice related to the Ringwood site. That should give you the information you need to send your comments. You will know your comments will be part of the public record because when EPA releases the final decision document – the Record of Decision – there will be a Responsiveness Summary which addresses all the comments received. The transcript from the public meeting will also be released. I understand your concern about the short period of time for the comment period, but if EPA receives a request for an extension, we will be happy to grant it as we have done in the past.

I will add your email to my list.

Thanks
Pat Seppi

Subject: Ringwood NJ

Ms.Seppi – Where can I email or mail written comments ahead of the 2/10/20 EPA Public Meeting on the Ringwood Mines/Landfill sites?

How can I ensure that my written comments become part of the official record? I suspect that you will get a lot of residents at the Meeting and I am concerned that there will not be adequate time to allow for written comments to be read into the record or included in that evenings public comments time frame.

Please add me to the mailing or notification list for this site. Thank you. Amy Boyle Geisel, Attorney at Law 10 Juniper Terrace, Ringwood NJ 07456-2606
